FIRE INSURANCE NOTICES, &c. SOUTHERN PROTECTION INSURANCE COMPANY ALEXANDRIA, VIRGINIA. CAPITAL OVER 350,000 DOLLARS,

AND CONSTANTLY INCREASING. The Charter of this Company offers more favora-ble advantages to the farmer and others, than any Company chartered in the State, by insuring with or without a premium note. If the applicant prefer, he can pay the full amount of the premium in cash, or by effecting a cash insurance for two years, the insured saves one-eighth of the amount he would otherwise have to pay; or by becoming a member, and giving a small premium note, the in-sured saves nearly one-half of the amount charged by Stock Companies, when insuring from year to year. This is the advantage resulting from the

CASH AND MUTUAL PRINCIPLE. This Company commenced issuing Policie against loss or damage by fire, on the 13th day of March, 1854, since which time over seven thousand even hundred persons have insured and become numbers of the Company, and over seventy thouand dollars have been paid for losses. Having increased our business during the past year, we feel grateful for the liberal patronage bestowed upon the Company thus far, and for its flattering propeets of future usefulness. The Directors hope and believe, that, by prudence, caution, and a rigid system of economy, they will establish for this Company a reputation for cheapness and safety not surpassed by any Company in the U. States. All differences in settlement of losses, may be determined by three disinterested arbitrators of the County where such loss happened, to be mutually

chosen by the insured and th Company. DIRECTORS: T. B. Robertson. Edward Sangster. James T. Close. Dr. R. H. Stabler, Christopher Neale, Thomas T. Hill, W. D. Massey, P. D. Lipscomb, Silas Biglow, W. M. Turner, Wm. Wright. R. F. Lester, S. T. Stuart. OFFICERS:

PIONEER MILLS FOR SALE!

W E are authorized by the proprietors to offer at private sale this extensive establishment. The MILL BUILDING is fire proof, built on piles, with stone foundation, and is situated directly on the River front, and within a few yards of the Orange & Alexandria and Manassas Gap Railroads, with Wharves, and depth of water afficient to accommodate vessels of the largest class. Its dimensions are 122 feet in length, by 80 feet in width, four and a half stories high, and

is covered with slate. A GRAIN ELEVATOR is also attached, by which grain can be rapidly discharged from vessels immediately into the Mill. The Grain Biss are capable of holding 70,000 bushels of Wheat. The Elevator is worked by a small engine, separate from that used in manufacturing, so that grain can

be received while the Mill is not in operation.

There are TWELVE PAIRS OF STONES, of 4½ feet diameter, capable of manufacturing, when in full work, about 800 barrels of Flour per day. The ENGINES and BOILERS are very superior, made by Otis Tufts, of Boston, Mass., without regard to expense. There are six Boilers, with return flues. The Engines are high pressure, and

of 250 horse power. WATER and GAS have been introduced through out the entire establishment, with Hose, &c., attached to the water pipes in each story. The above is only a general description of this extensive Flouring Mill. Persons desirous of pur-

chasing, will, of course, visit the establishment, where every information will be afforded them. The Machinery is all nearly new, and of the most approved description, it having been the design of the proprietors to erect a Mill second to none in this section of the country. In it will be found every thing appertaining to a first-class Flouring Mill. A COOPER'S SHOP, of brick, covered with slate, and with iron window shutters, adjoins the Mill. Its dimensions are 100 feet in length,

Tools, &c., all in perfect order. There are now about 7,000 FLOUR BARRELS on hand, which will be sold with the Mill. Also, a lot of Cooper's stuff, STAVES, HEADING, &c. It is rarely that such an establishment, so ex-tensive and complete in all its appointments, is offered to the public. The terms of the sale will be made easy.

MISCELLANEOUS READING. . A VISIT TO ROBINSON CRUSOE'S ISLAND While on board the ship Golden Rocket, lying at Greenwich dock, we were permitted by Capt. Pendleton to examine his log book, in which he gives an account of his visit to the Island of Juan Fernandez (Robinson Crusoe's Island.) The ship was on her last passage to this port from Boston, and had on board fifty-five passengers, (twenty

Getting short of water, Captain Pendleton decided to stop at Juan Fernandez for a further supply, and therefore shaped his 24th, they doubled the eastern end of the is land, and at seven rounded to off the Bay of St. Joseph, at the head of which the few in habitants now remaining on the island are located. The facilities for loading water at the island, Captain Pendleton represented to be not very good. The casks must be taken on shore and filled, rolled back into the water and parbuckled into the boat. While the crew were at work, the passengers rambled off in different directions to make discoveries The island is about twenty-five miles long by about four in breadth. The land is very high, rising in rugged precipitous peaks-one of them called Yunkque, 3,500 feet above the level of the sea. The peaks are generally overhung with clouds. The valleys are excessively fertile, the grass growing to the height of six or eight feet. Figs, strawberries, peaches and cherries abound in their season. The Golden Rocket was there in the season of peaches, and the valleys and hills sides were full of trees loaded down with delicious fruit. Captain Pendleton bought four barrels, of the inhabitants, and the passengers

about as many more. Strawberries best flourish in December and January. There are three remarkable caves in the side of the hill facing the harbor about thirty feet in length, twenty-five in width, and about the same in height. The inhabitants number but fourteen, of whom Messrs. Day & Kirkaldie, from Valparaiso, are the chief persons, they having been appointed over-seers of the island by the Chilean government. Formerly a penal colony, numbering five hundred, was located here, and the caves above mentioned were used by thembut the project was found to be impracticable, and the convicts were taken back to the

main land. The Golden Rocket anchored upon the opportunity site side from that upon which Selkirk lived, and there being a mountain to cross to reach the Robinson Crusoe abode, no one ventured to make the journey. The best landing is on the eastern side, but the water is twenty weeks, \$30. Excellent music from a New York band provi fathoms deep at the head of the bay, and in some places so bold is the shore, a boat tied by her painter, and drifting to the limits, will be in seventy-five fathoms. An immense number of goats are running wild over the island, and an abundance of fish are taken on every coast. The water is obtained from a number of nevertailing rivulets trickling down over the rocks from the cloud-capped

mountains .- San Francisco Times.
